

ABOUT THE ARTIST:

LYNN MARSH is a local artist and has lived most of her life in the San Francisco Bay area, with pivotal periods in Big Sur. She has focused on drawing and sculpting the human figure. Much of her work concerns the Mythic. Indeed, some refer to her as “mything in action.”

This series of nudes in line are icons to the purity and grace of the Feminine.

Her heroic Tomato Devas are images that recall our Spirit connection to the Good Black Earth and the Bounty that springs forth, delighting in its own power and excess. Ripeness is All!

**The artistic process
is a metamorphosis,
a transformation,
psychological, spiritual and
material.
It is a celebration
of the vitality, mystery and variety
of living forms;
an expression of
the archetypal and instinctual
forces that course through,
pattern and harmonize
all living things.**

Lynn Pollock Marsh
